You'll get notified when downloads are done, software installed and authorized, and other useful updates, along with useful news about new releases, updates, and more. The IK Multimedia Product Manager application is where you'll register, authorize, and install all of your IK Multimedia virtual instruments, effects plug-ins, and hardware drivers. After the download is complete, go to your Downloads folder and launch the installer. Log in using your IK Multimedia username and password. For example, the Miroslav Philharmonik 2 virtual instrument requires at least 58GB of free hard drive space. You can authorize your IK Multimedia software up to 10 different computers at once. If you don't have an account, you can create one here. Click the Install button located next to your plug-in. Follow the on-screen instructions to complete the installation process. You can browse and load sounds from the DATA knob, control any of the 8 macros instantly from the touch-sensitive encoders, control the transport and event trigger loops or browse drum samples, or launch live-set ups directly from the integrated pad controllers. Alternatively, you can click the icon with four blocks, which is located at the top of the screen. Copy and paste the Serial Number you received from your Sweetwater Sales Engineer into the blank field, then click Register. After you register the product, click the Padlock (Authorize) to authorize the plug-in. You can also have the plug-in automatically authorize upon installation of the plug-in. You're Reading a Free Preview Pages 18 to 27 are not shown in this preview. You're Reading a Free Preview Pages 8 to 13 are not shown in this preview. After the download is complete, go to your Downloads folder and extract the .zip file. Open the Sounds Content folder, then run the Sound Content installer. During the installation process, you'll be prompted to choose a location where the libraries will be installed. This means that any add-on for a specific plug-in will be listed in the Products tab of that particular plug-in. SampleTank 4 also adds to its full MIDI control a new seamless integration with IK's iRig Keys I/O controllers. That's why, in this article, we will walk you through every step between authorizing IK Multimedia software and launching it for the first time. To find out more or to opt-out, please read our Cookie Policy. Check out Microsoft's article on how to add an exclusion to the Windows Security list. RETURN TO TOP 1 Download and install virtual instrument libraries if you've purchased a virtual instrument that uses sound libraries, such as Miroslav Philharmonik or SampleTank, the final step is to download the sound libraries. The content will be downloaded to whichever location you set. Go to the IK Multimedia Product Manager product page, and click on the download for your OS. We highly recommend installing them on an external hard drive. If you receive the following error: "(your product) NOT installed code undefined", you'll need to add the IK Multimedia Product Manager folder to the Windows Security exclusion list. With SampleTank 4 and iRig Keys I/O, you have an entire production system that's totally plug-n-play. Enter your serial number when prompted RETURN TO TOP 1 After authorizing the software, the last step is to download and install the plug-in within the IK Product Manager application. Click the Sounds tab to access the library downloads. Click Install to begin the download process. The download process takes time, so be sure not to close out the Product Manager. After 180 days, you will need to directly purchase a Sounds Download Reactivation Credit from IK Multimedia to reacess the downloads. ForumMyLPAllSearch the forum/Unanswered PostsMy KVR OIndustry Focus Blog & InterviewsVideosLearnMusic by KVR Members The Notification Center lets you easily keep tabs on larger install jobs. The default location for the Product Manager folder is C:\Users\Audio\Documents\IK Multimedia. Sound library downloads are only available for 180 days after the initial authorization. For example, if you purchased the Mesa/Boogie Software Suite, it will show up in the Amplitude Products tab. IMPORTANT: Products are grouped in families. Best of all, it's totally FREE, and it's just another reason that you get more at Sweetwater.com. To do this, click Deauthorize and then click Authorize to authorize the new computer. Launch your IK Multimedia virtual instrument, and go to the Settings window. Add the file path where the libraries were installed to, then click OK. Once you have reached the limit and need to authorize a new machine, you will need to deauthorize one. The virtual instrument and effects plug-ins will be registered in the Software tab of Product Manager, and the sound libraries will be downloaded in the Sounds tab. When installing your IK Multimedia software, you'll need to make sure you have the required space necessary. You can have a custom download location for your IK Multimedia plug-ins, but the standard location should suffice. If by any chance, you're not sure where the download file path is, or if you want to change the location where your plug-ins are installed, you'll want to go into the IK Multimedia Product Manager Preferences menu.
